Mauer Kunst Consulting  
Henry A. J. Ramos  
Principal

The Diego Rivera Foundation, with the support of the Instituto Nacional de Bellas Artes y Literatura (National Institute of Literature and Fine Arts) and of the Secretaría de Educación Pública (National Department of Public Education) and in collaboration with The Philadelphia Mural Arts Program, The Social and Public Art Resource Center, Arte Público Press and Mauer Kunst Consulting is organizing the International Mural Painting Conference, to be held in Mexico City on May 16 – 18, 2006.

Our main objective is to learn about the current mural painting situation in different parts of the world. We also want to know how many and which artists are involved in this art form and what would be the most suitable media to develop and strengthen this artistic activity at a world-wide level.

Therefore, we have taken into account that other international meetings have covered this artistic expression from different perspectives. We want to contribute to this effort by organizing the International Mural Painting Conference at which, through the open and most profound exchange of ideas and opinions, the conditions and problems in which this important artistic work is immersed can be analyzed and discussed.

The Conference will be the proper space to approach:

- The historic and current situation of mural painting
- The application of mural painting in programs of education and community integration
- The use of new technologies
- Current methods on training and conservation
- Artists rights

In order to achieve this objective, we want procure the presence and participation of artists, intellectuals, art critics, gallery curators and other people committed to the art world. Therefore, we are pleased to invite you to participate in the staging of this event.

Enclosed, we send you the program of the International Mural Painting Conference

We look forward to meet you in Mexico City, as your attendance and participation is very important for us to enrich the substantial discussions that will be carried out along the International Mural Painting Conference.
